Meeting Notes for Zoom Discussion on "We Live in Time" Webpage Mockups

Date 10/30/2024

Creative Director: Gioia Wang
Designer: Nicole Farnsley

1. Topic
  - Overview of the film "We Live in Time" and its central themes of connection, time, and emotional journeys
  - Emphasis on emotional narratives and character relationships.

2. Potential Webpage Concepts

Layout
  - A clean, modern look with a hero image showcasing a pivotal scene from the film.
  - Navigation bar will include links to key sections: Home, Plot, Themes, Cast, Production, and Reviews.
  - Interactive elements (e.g., hover effects) to reveal quotes or behind-the-scenes insights.

Color Palette
  - Warm and inviting colors that align with the film's emotional tone, such as shades of gold and deep blues.

Typography
  - Use elegant, readable fonts to enhance the film's sophisticated aesthetic.
  - Titles will be bold and eye-catching, while body text remains legible.

Visual Elements
  - High-resolution stills from the film will be integrated into the homepage.
  - A modern aesthetic with clean lines and a warm color palette
  - Potential inclusion of a short promotional video clip that captures the film's essence.
  - Incorporate a more artistic design, possibly using textured backgrounds to add depth.
  - Utilize subtle animations to enhance user experience without detracting from content(?)

Content Presentation
  - Bullet points or visually engaging infographics to summarize major themes and concepts.
  - Use quotes from the film and critical reviews to support thematic analysis, with a dedicated section for user comments or reflections.

User Experience
  - Smooth and seamless navigation throughout the page, making it easy for users to find information.
  - Test design mockups on various devices to confirm responsiveness.
