Project Title: We Live in Time

The microsite will consist of multiple pages, designed to provide comprehensive information about the movie "We Live in Time." Each page will be carefully crafted to engage visitors through a responsive design that incorporates visuals and multimedia elements reflective of the film's themes and aesthetics.

### Home Page / Introduction

- Brief introduction to the movie, including release year and genre.
- Overview of the thematic elements and tone of the film.
- Inclusion of a captivating image or still from the movie.
- Iconic quotes or taglines from the film.

### Plot Summary

- A detailed synopsis of the movie's storyline.
- Key plot points and character arcs.
- Discussion of the film's themes and underlying messages.

### Cast and Characters

- Introduction to the main cast members.
- Brief biographies of leading actors, highlighting their previous work and significance in the industry.
- Analysis of character portrayals and their impact on the film.

### Production Details

- Insights into the production process, including filming locations and duration.
- Information on the director, producers, and production companies involved.
- Behind-the-scenes stories or anecdotes from the filming experience.

### Reception & Legacy

- Overview of critical and audience reception upon release.
- Analysis of reviews from notable critics and publications.
- Discussion on the film's influence on contemporary cinema and its legacy over time.

### Sources, Credits, References, External Links

- A compiled list of references used for the microsite.
- Citations for articles, interviews, and other media related to the film.
- Acknowledgements of photographers and contributors for images used.

## Design Considerations

- Each page will ensure easy navigation with a top menu linking to all major sections.
- Responsive design to enhance user experience across devices (desktops, tablets, mobile).
- Engaging visuals and interactive elements to capture the essence of the film.
